Language is a communication system that uses voice and is read out through the speech organ and can be heard by members of the public using a vowel symbol which conventionally means in an arbitrator or whatever they like (H.G Brown, 2001 : 491). As a means of communication, both printed and electronic media hold an important role to the development of language. Most people nowadays from young till adult like to listen to the music or song. People like to spend their time to listen to their favorite songs.

Music is sound arranged in such a way that it contains rhythm, song, tone, and harmony, especially for the sound produce from instruments that can produce rhythm. The definition of lyrics or song lyrics can be considered as poetry and vice versa and is appropriate, as the definition of poetry texts is not only sufficient for literary types but also expressions of the nature of advertising, proverbs, slogans, prayers and pop song lyrics (Jan Van Luxemburg, 1989 : 5) the function of the song can be used to ignite enthusiasm, such as during times of struggle, unifying differences, playing with one's emotions and feelings with the aim of instilling attitudes or values that people can then feel as natural, correct and appropriate. Songs lyrics also give motivation and inspiration for the listeners. Song is not only used to entertain people but also can be a tool to share something single through the message and value of the lyrics. Found that music can reduce pain, depression, and can improve sleep quality. In fact, a recent study states that singing and listening to music can improve mood or mood, but they don't really pay attention to the meaning in the lyrics of the song.
